ATTN OF: ER:WF:02164

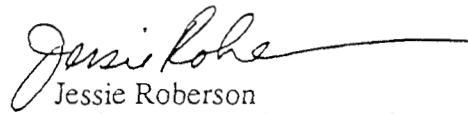

SUBJECT: Technical Memorandum Number 1, Operating Unit 15

TO: Autar Rampertaap, Chief, Rocky Flats Branch, EM-453, HQ

Attached please find the Draft Operating Unit 15 (OU-15) Technical Memorandum Number 1 to you for review and comment. We would like to use this technical memorandum as a basis for a no-action decision by EPA and CDH. We are requesting that you support an accelerated schedule by using a simultaneous review by HQ-DOE, CDH, and EPA. Please return your comments to this office in two weeks. If the reviews show no omissions were made, we plan to use this report to replace the Phase One RFI-RI report that is scheduled for delivery August 1, 1994.

Please pay particular attention to Table 6-1 on Page 6-25 of the attached report. Footnote 4 is of the most interest because Bill Fitch is concerned that this issue could keep us from having a no-action recommendation.

We would like your comments back by March 11, 1994. Please phone Bill Fitch if you have any questions at 303-966-4013.
